Program Outcomes (POs) – B.Com

Late Annasaheb Deshmukh Deshmukh College, Pimpalgaon Renukai

PO1: Knowledge of Commerce & Management

Graduates will gain a strong foundation in accounting, finance, business management, marketing, taxation, auditing, banking, and economics.

PO2: Problem-Solving & Analytical Skills

Graduates will apply analytical and critical thinking to interpret financial data, understand business issues, and develop logical solutions.

PO3: Accounting Proficiency

Graduates will develop skills in preparing, analyzing, and interpreting financial statements and applying accounting standards effectively.

PO4: Business Communication Skills

Graduates will communicate clearly and professionally through written, oral, and digital channels relevant to business environments.

PO5: Entrepreneurship & Innovation

Graduates will understand the fundamentals of entrepreneurship and develop innovative thinking for creating and managing business ventures.

PO6: Ethical & Professional Values

Graduates will demonstrate ethical behavior, integrity, transparency, and responsibility in business practices.

PO7: Use of Modern Tools & Technology

Graduates will effectively use modern accounting software, digital platforms, and ICT tools for business and financial operations.

PO8: Economic & Business Environment Awareness

Graduates will understand national and global economic policies, business laws, and contemporary issues affecting the business world.

PO9: Teamwork & Leadership

Graduates will work effectively in teams, show managerial skills, and take leadership roles in group activities.

PO10: Taxation & Compliance Knowledge

Graduates will develop the ability to understand, compute, and comply with tax laws, GST, and related regulatory frameworks.

PO11: Research & Inquiry Skills

Graduates will acquire basic research skills including data collection, analysis, interpretation, and preparation of reports.

PO12: Lifelong Learning

Graduates will engage in continuous learning for professional growth and adaptation to technological and economic changes.

Program Outcomes (POs) – B.Sc

Late Annasaheb Deshmukh College, Pimpalgaon Renukai

PO1: Scientific Knowledge

Graduates will acquire fundamental and advanced knowledge of scientific principles in their chosen disciplines such as Physics, Chemistry, Mathematics, Botany, Zoology, Computer Science, etc.

PO2: Problem-Solving Skills

Graduates will identify, analyze, and solve scientific problems using logical reasoning, experimentation, and quantitative techniques.

PO3: Laboratory & Experimental Skills

Graduates will develop practical skills to perform scientific experiments, handle laboratory equipment, maintain safety protocols, and record results accurately.

PO4: Critical Thinking & Data Analysis

Graduates will interpret scientific data, draw valid conclusions, and apply critical thinking for decision-making in scientific contexts.

PO5: Use of Modern Tools & Technology

Graduates will utilize modern scientific tools, laboratory instruments, computers, and software for data collection, simulation, and analysis.

PO6: Communication Skills

Graduates will communicate scientific ideas clearly through written reports, presentations, practical records, and digital formats.

PO7: Environment & Sustainability Awareness

Graduates will develop awareness of environmental issues, biodiversity, sustainability practices, and contribute to environmental conservation.

PO8: Ethics & Professional Conduct

Graduates will practice ethical principles, maintain scientific integrity, and respect academic honesty and professional responsibilities.

PO9: Teamwork & Collaboration

Graduates will work effectively as members or leaders in multidisciplinary teams and coordinate to achieve common scientific goals.

PO10: Research & Inquiry Skills

Graduates will develop research aptitude, including problem identification, hypothesis formulation, experimentation, data interpretation, and report writing.

PO11: Application of Science to Society

Graduates will understand the impact of scientific developments on society, technology, health, agriculture, and industry.

PO12: Lifelong Learning

Graduates will engage in continuous learning and adapt to scientific and technological advancements for personal and professional growth.

Arts, Com. & Sci. College
Pimpalgaon (Ra) Tal. Chikardan Dist. Jalna

Course Outcomes (COs) – B.A.

Late Annasaheb Deshmukh College, Pimpalgaon Renukai**

CO1: Understanding of Core Subject Knowledge

Students will understand the fundamental concepts, theories, and principles of the studied subject.

CO2: Critical Thinking & Analytical Ability

Students will develop the ability to critically analyze literature, historical events, social issues, political structures, or economic trends based on the subject.

CO3: Application of Knowledge

Students will apply subject knowledge to real-life contexts, social issues, field work, case studies, or cultural analysis.

CO4: Effective Communication

Students will communicate ideas clearly and logically through oral presentations, essay writing, assignments, discussions, and digital formats.

CO5: Ethical, Social, and Cultural Awareness

Students will demonstrate awareness of ethical issues, social responsibilities, cultural values, and human rights.

CO6: Research & Inquiry Skills

Students will develop basic research competencies such as data collection, interpretation, critical reading, documentation, and report writing.

CO7: Problem-Solving Skills

Students will identify relevant problems within the field of study and propose logical, evidence-based solutions.

CO8: Use of ICT & Digital Learning Tools

Students will effectively use digital resources, online platforms, and ICT tools for learning, research, and presentation.

CO9: Appreciation of Literature, Culture, & Society

Students will understand and appreciate literary works, cultural traditions, historical heritage, and socio-political developments.

CO10: Lifelong Learning & Professional Development

Students will develop habits of independent learning, adaptability, and continuous knowledge enhancement.

Course Outcomes (COs) – B.Com

Late Annasaheb Deshmukh College, Pimpalgaon Renukai**

CO1: Understanding of Commerce and Business Concepts

Students will understand the fundamental principles of accounting, management, economics, finance, marketing, and business environment.

CO2: Accounting Skills

Students will develop the ability to record, classify, summarize, and interpret business transactions using proper accounting methods.

CO3: Financial Analysis & Decision Making

Students will analyze financial statements and use financial information for informed business decisions.

CO4: Application of Business Laws & Ethics

Students will understand and apply basic business laws, ethical practices, and regulatory frameworks in commercial activities.

CO5: Use of ICT & Modern Business Tools

Students will use accounting software, spreadsheets, digital tools, and online platforms for business operations and data management.

CO6: Business Communication Skills

Students will communicate effectively in professional contexts using written, oral, and digital communication skills.

CO7: Entrepreneurial Skills

Students will develop entrepreneurial thinking, innovation, and the ability to identify and analyze business opportunities.

CO8: Taxation Knowledge

Students will understand and apply basic taxation concepts including Income Tax, GST, and compliance procedures.

CO9: Economic & Business Environment Understanding

Students will interpret economic trends, policies, and business environment factors affecting organizations.

CO10: Research & Analytical Skills

Students will develop basic research skills, including data collection, interpretation, report writing, and survey analysis.

CO11: Teamwork & Leadership

Students will effectively work in groups, show leadership qualities, and manage responsibilities collaboratively.

CO12: Lifelong Learning & Professional Development

Students will develop continuous learning habits to adapt to changing business trends, technologies, and professional requirements.

Pimpalgaon (Re) Tal: Bhokardan Dist: Jalna

Course Outcomes (COs) – B.Sc

Late Annasaheb Deshmukh College, Pimpalgaon Renukai**

CO1: Understanding of Basic Scientific Concepts

Students will understand the fundamental concepts, principles, and theories of physical, chemical, biological, and mathematical sciences.

CO2: Experimental & Laboratory Skills

Students will develop the ability to conduct scientific experiments, handle laboratory instruments, follow safety protocols, and accurately record observations.

CO3: Scientific Problem-Solving

Students will identify scientific problems, analyze them logically, and apply appropriate methods and principles to find solutions.

CO4: Data Analysis & Interpretation

Students will acquire skills in data collection, statistical analysis, graphing, and interpretation of scientific results.

CO5: Use of Scientific Tools & Technology

Students will use modern scientific equipment, laboratory tools, computers, and software for simulations, measurements, and data analysis.

CO6: Critical Thinking & Logical Reasoning

Students will develop critical and logical thinking abilities to evaluate scientific information, distinguish facts from assumptions, and draw valid conclusions.

CO7: Scientific Communication Skills

Students will communicate scientific ideas, experimental findings, and project reports clearly through oral, written, and digital formats.

CO8: Research Aptitude

Students will develop basic research skills, including literature review, hypothesis formation, experimental design, and scientific documentation.

CO9: Environmental & Sustainability Awareness

Students will understand environmental issues, biodiversity, pollution, climate change, and the importance of sustainable practices.

CO10: Ethics in Science

Students will practice ethical behavior in scientific work, ensure honesty in reporting data, and respect scientific integrity.

CO11: Teamwork & Collaboration

Students will work effectively in teams, perform group experiments, take shared responsibility, and contribute to collective scientific tasks.

CO12: Lifelong Learning & Adaptability

Students will develop the ability for independent learning, keeping pace with scientific advancements, modern technologies, and new research trends.
